About Us

Today, Shri Balaji Stones World is one of the most reckoned sources of a variety of Granite solutions.

1)company Name -shri Balaji Stones World

2)year of Established 2002

3)gst Registration: 36blapg9375a1z7

4)ie Code- Blapg9375a

5)name of Director -pooja Gupta

6)contact Person- Rohit Gupta (Manager)

0091 9121020980

7)nature of Business- Manufacturing, Export , Quality Procurement

8) Product Manufactured or Trade- Granite Slabs, Granite Tiles, Granite Cut to Size for Projects,imported Marble, Indian Marbles,slate Stones, Sand Stones

9)no of Factories- 100 to 150 All Over India

What We Do

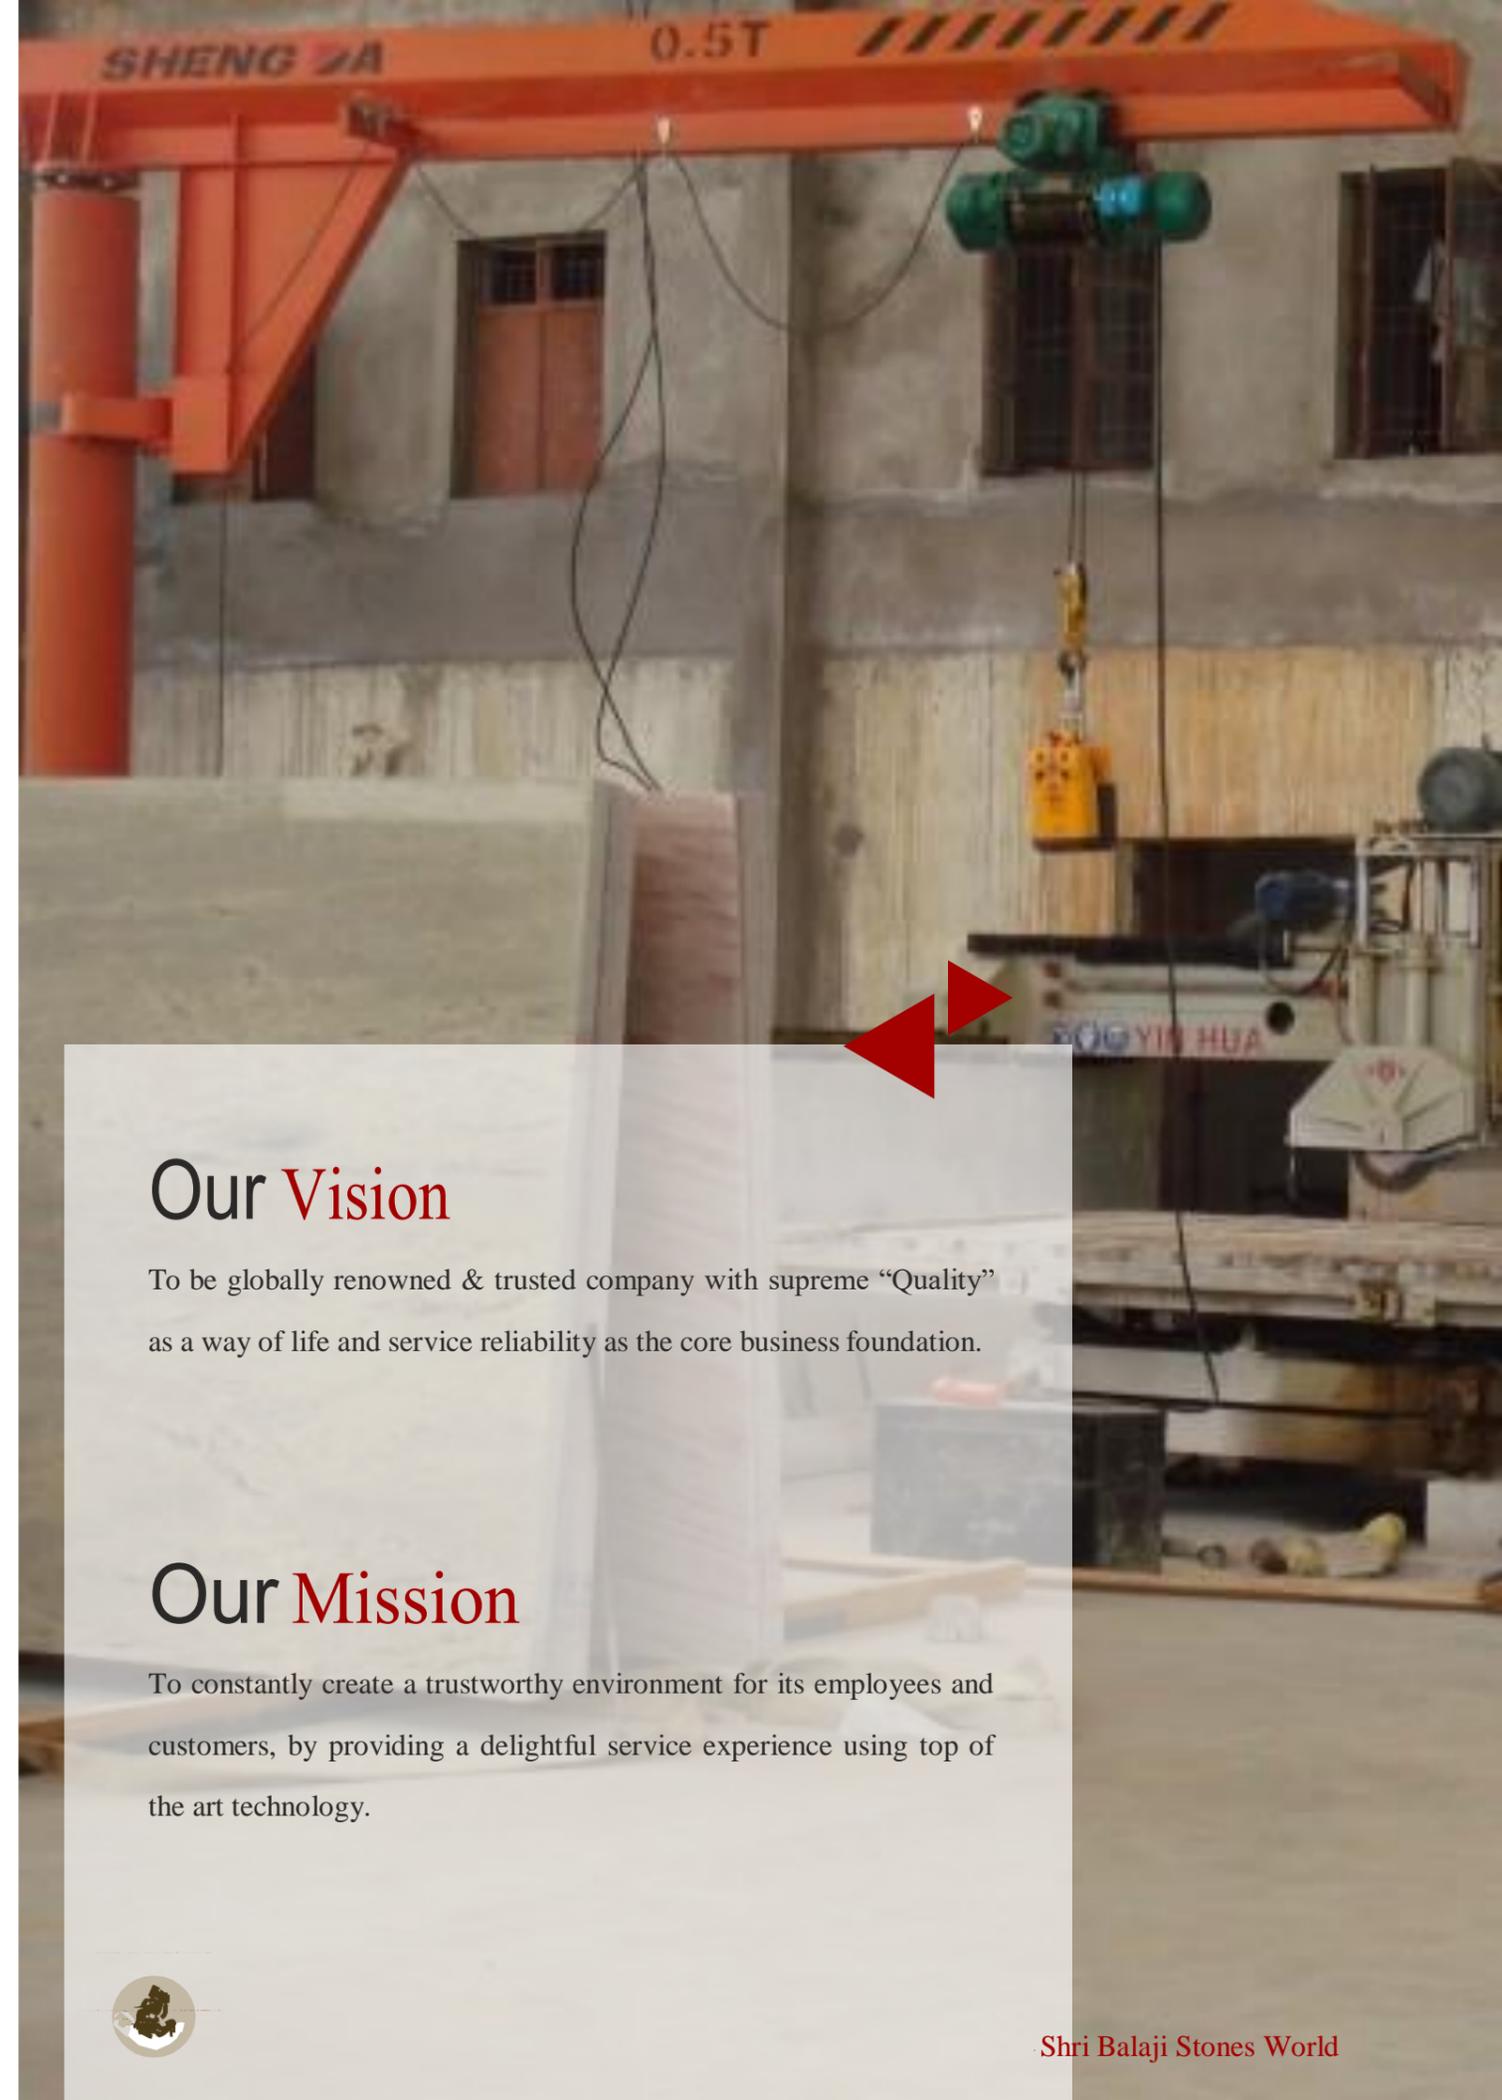

We process more than 120 colors at our own and our partner processing facilities. We have commendable authority over the raw material (Rough Blocks), which results in Good Quality material and Timely delivery of Goods.

We started with the supply of material to third party exporters; presently 90% of our turn over emerges from our direct export business. Today - with multiple factory locations, strong quarry alliances, offices in all major granite cities of India, we have established ourselves as one of the most reliable & highly client-centric company - with an un-paralleled edge on knowledge & ability to source, process & supply Granites from India.

Our Quality & Service standards – helped us in achieving our clients' trust & since then, we progressed rapidly to set up & alliance with multiple Granite Cutting / Processing Factories – at EVERY STRATEGICALLY IMPORTANT granite locations of India.

Shri Balaji Stones World

Our Vision

To be globally renowned & trusted company with supreme “Quality” as a way of life and service reliability as the core business foundation.

Our Mission

To constantly create a trustworthy environment for its employees and customers, by providing a delightful service experience using top of the art technology.

Co Contact Details	Contact Person: Mr. Rohit Gupta Designation: Manager Mobile : 91210 20980
Nature of Business	Manufacturing, Export , Quality Procurement
Product manufactured or trade	Granite Slabs, Granite Tiles, Granite Cut to Size for Projects,imported Marble, Indian Marbles,slate Stones, Sand Stones
No. Of Factory	100 To 115 to over all India

Quality Commitments & Values

Customer is King - We believe it from our heart but at the same time, we are committed for independence of thought and action, not only for ourselves but whosoever is working with us.

Ethics - In business are not to be preached but followed (as far as possible). Not only to be transparent visibly but sincerely (in reality).

Quality - is not a slogan; it is a part of our life and business. May be the products but much more important is the QoS. Reiterating again profit is not only the motive but building relations on the base of our dealings is the aspiration worth working for.

Mostly, **Time** is the most crucial factor in the projects, and we understand that. We make it sure to commit to the work, which can be completed within the stipulated time frame. It can be a matter of life and death, for many taking up projects. To say no, is always better than to fiddle in something we do not understand properly.

At Shri Balaji Stones World we follow the concept of ethical business where we believe in inculcating faith among our respected customers by structuring our business in a transparent manner.

We are very much adamant on maintaining quality and doing timely delivery on transparent business terms. We maintain safety of the employees as our primary concern and continuously work upon up-gradation of technology and maintaining cordial business relationships with our honorable customers.

Shri Balaji Stones World

Available Sizes

- **Gang-saw Cut** - Random Slabs 280up x 180up x thickness. Standard Thickness Processed 2 cm to 4 cm to 10 cm thickness available on Request.
- **Random Slabs**- 220up x 110up x thickness. Standard Thickness Processed 1.8 cm - 2 cm to 8 cm thickness available on Request.
- **Small Slabs** - Random Slabs 180up x 60up x thickness. Standard Thickness Processed 1.8 cm - 2 cm to 8 cm thickness available on Request.
- **Tiles** - Stand Sizes: 30 x 30 x 1 cm, 60 x 30 x 1 cm, 60 x 30 x 1.8 cm or 2 cm, 60 x 60 x 1.8 cm or 2 cm.
- **Cut to Size** - Thickness can be processed from 1.5 cm to 8 cm as per requirement. Slabs are processed in to Tiles as per the specifications provided with utmost accuracy.

Granite is an igneous rock formed by volcanic action. Flecks of quartz, feldspar and mica give each tile a special character. Our range of Granite is available in a choice of following finishes :

HONED : A smooth finish with a slight sheen, produced by using a polishing head.

POLISHED : Smooth and Shiny, All materials are processed on Line Polishing Machine to offer the best Gloss Possible.

SAND-BLASTED : High-pressure jet of siliceous sand or steel shots is applied to the area to be treated. This treatment produces a smooth abrasion, leaving the material with a slightly scratched (but not rugged) surface. The color tones and the veins are slightly dulled.

FLAMED : Its produced when an intense flame is fired at the stone, causing the surface to burst and become rough. This finish is used primarily for exteriors applications where slip-resistance is extremely important.

FLAMED & BRUSHED : The process of Flamed Finish as explained above, blows the crystals out as they suffer thermal shock, with an effect that is particularly evident in materials composed of minerals with various degrees of expansion. The resulting surface is rough, non-slip and generally faded in colour, thereby hiding defects and tone variations. Because of oxidation, yellow materials become orange or red. After The Flaming is done, the surface is Brushed to make it smoother, which in turn gives it an entirely different look. **LEATHERED**: It's the process of texturing granite or marble to appear less glossy. This process amplifies the natural characteristics of granite or marble, resulting in an exquisite surface. It is easy to clean and maintain, as well as, pleasing to the touch - a perfect balance between style and practicality.

Projects And Cut To Size

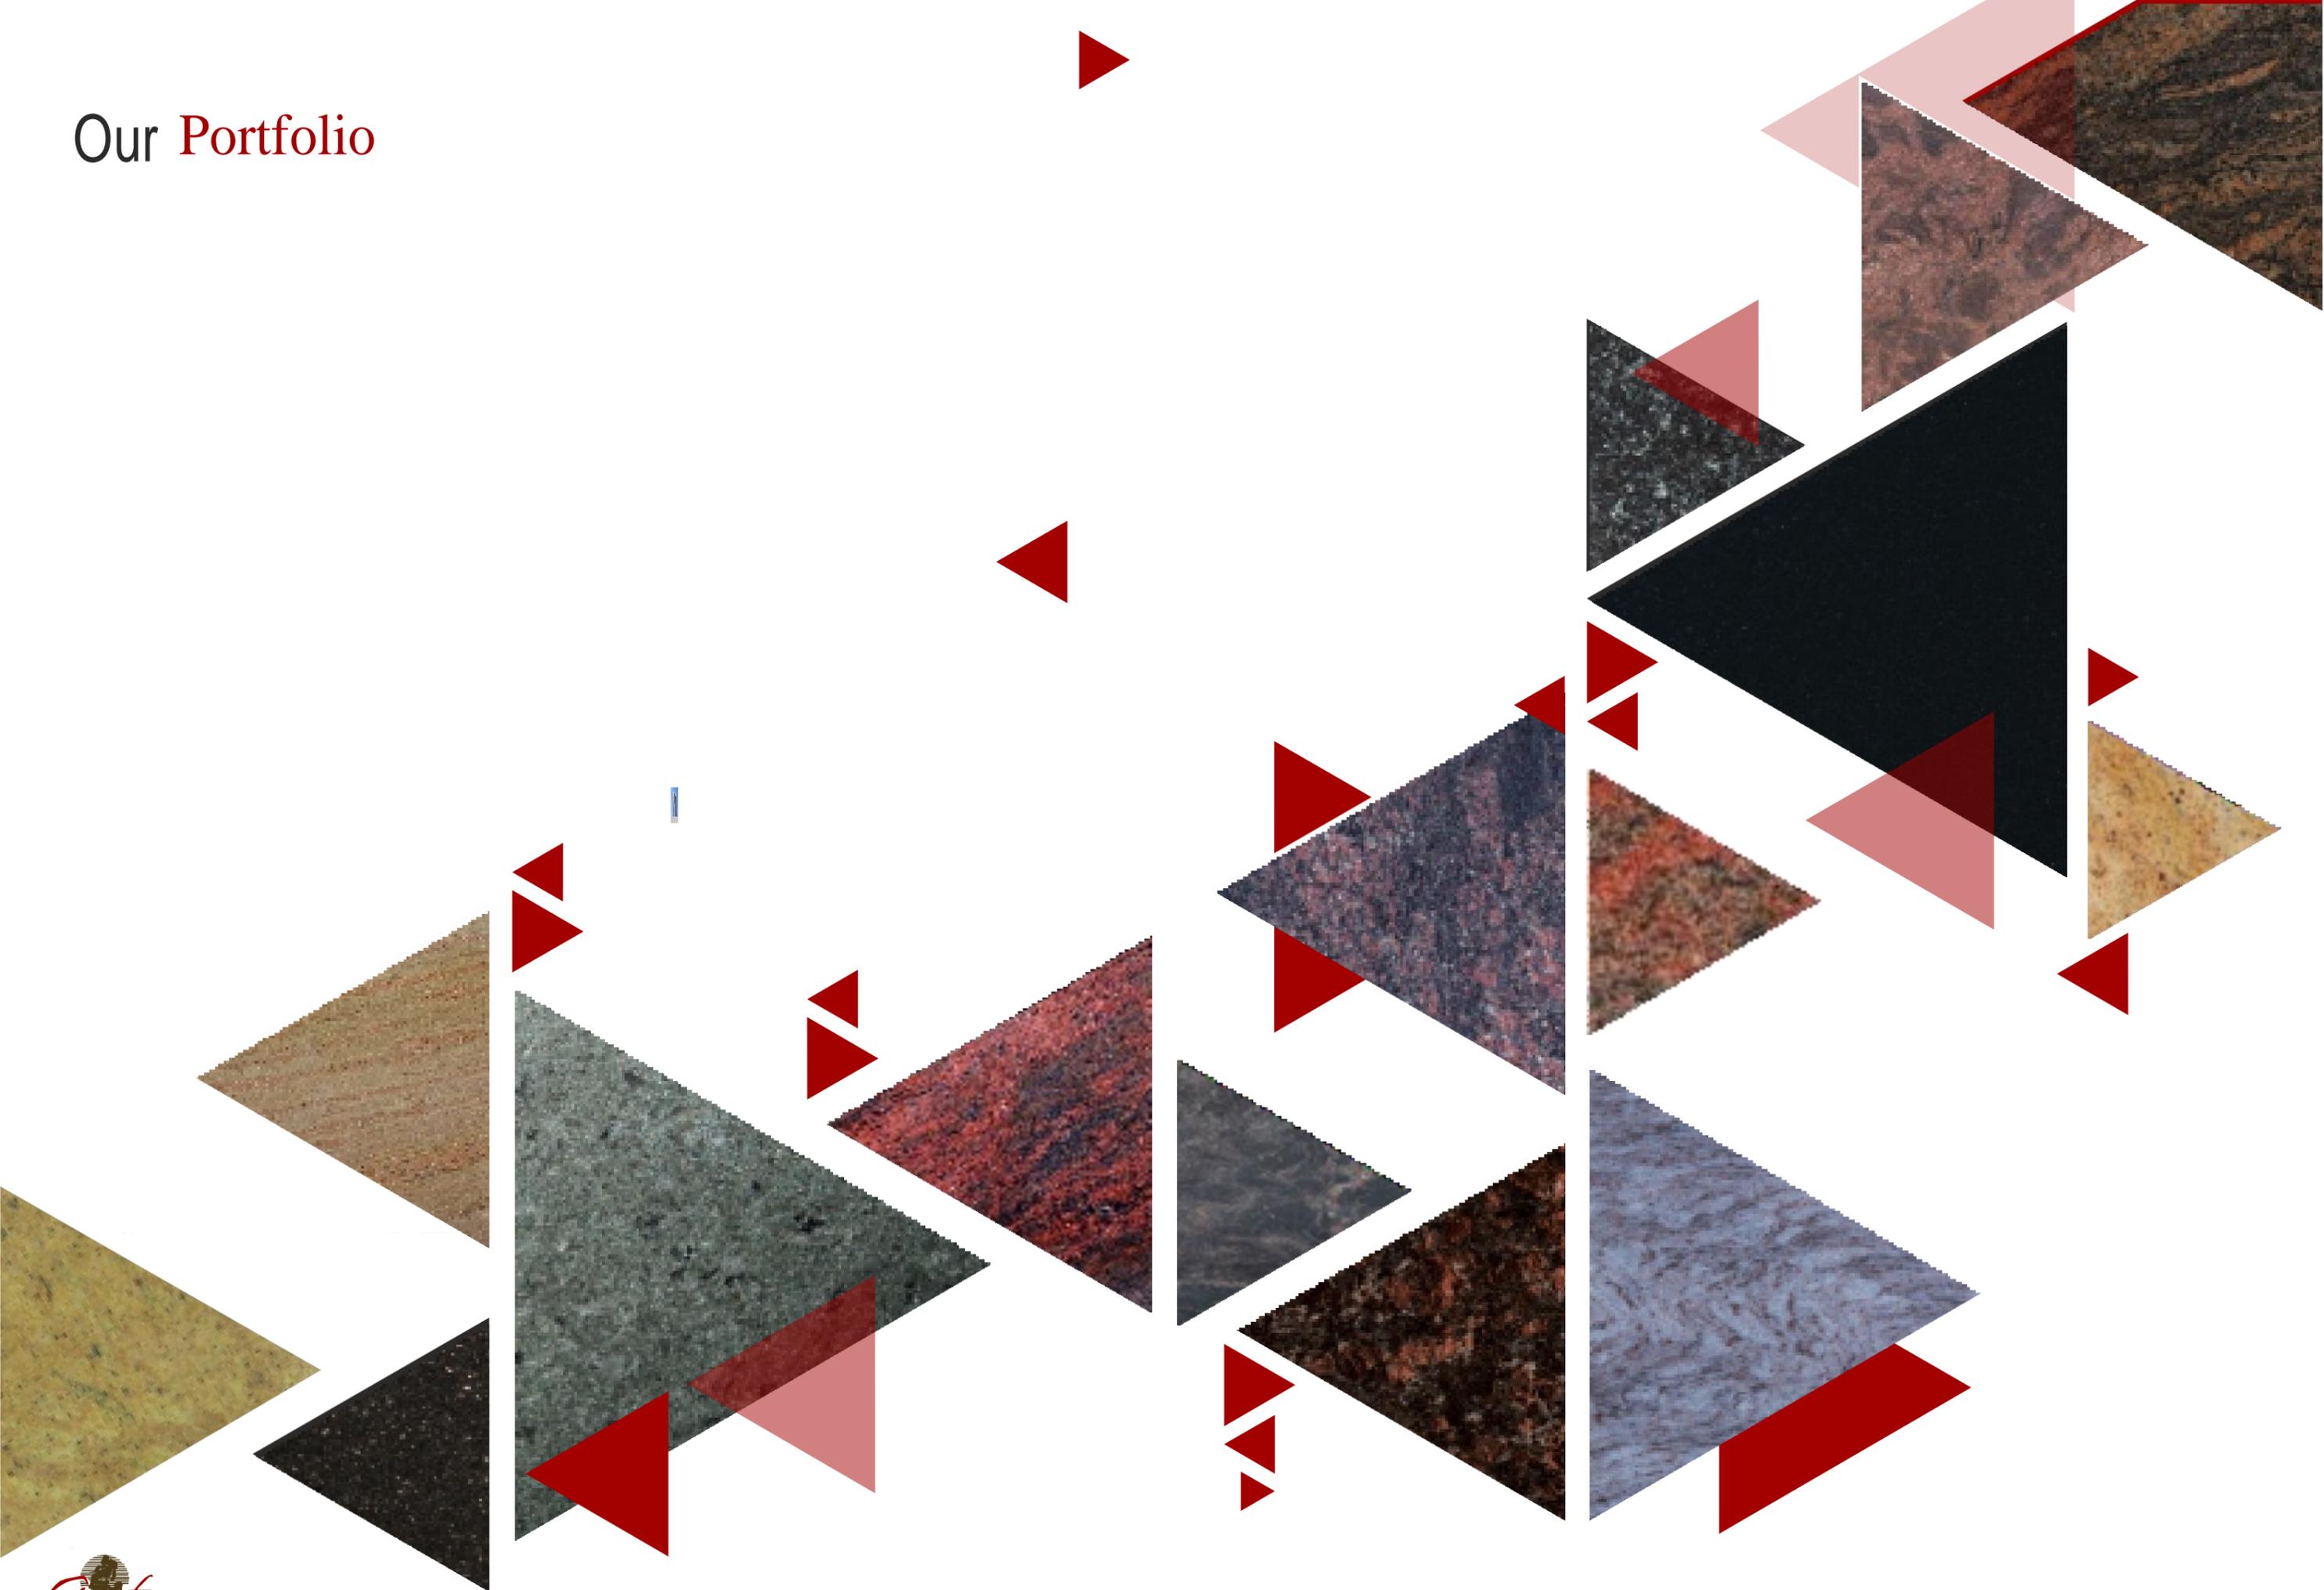

As we are regularly doing projects, we are well versed with the whole process:

- a) Selection of Raw material as per our choice of material and with minimum natural defects as far as possible. Planning of Production as per the set and realistic terms.
- b) Cutting of blocks into slabs, maintaining the thickness as per the standards of the project.
- c) Finish of Slabs - Polished / Flamed / Honed / Leather / Sand-Blasted as per project requirements.
- d) Cutting of Slabs into Tiles or Cut to size, as per the projects specifications. The sizing process is the most important process and must be handled properly, so that there are no variations in the sizes of the finished tiles. All Tiles are checked for Quality and Size again before the final packing takes place.
- e) Labeling - For any project, the easiest way to work with Granite tiles is labeling. As we will be provided with the details about the project and also, about which batch is for which area in a project, we fix stickers on all tiles indicating the size, area of application, finish and other relevant details. Finally a summary is fixed on the wooden crate for easier access to the construction staff at the site.
- f) Packing and Forwarding - The Final step, that is packing of goods into Strong and well-designed wooden crates. We cannot afford to waste good material just due to bad packing. We have our fixed shipping agent with whom we are working from 2006, and direct contact with Maersk Shipping line. This way we can avoid any delays and get the best cost possible.
- g) Time of Delivery: As in most projects, time of delivery of goods plays a crucial part. As we are direct processors, so any delay due to middlemen is already avoided. We will provide you with a Delivery schedule, certainly in consultation with our client, and we can assure you that we can stick to that delivery plan on the whole. Its important to set the time schedule realistically, rather than committing to a faster delivery schedule just to bag an order. Everything must be planned, including the raw material, processing, packing, forwarding, so that the delivery schedule is met, and as we have done this work several times already, we are confident about this job.
